## BILL No 54.

A MEMORIAL to the Congress of the United States.

Your memorialists, the General Council of the Choctaw Nation, in regular session assembled, would respectfully represent unto your honorable body that the recommendations of the United States Indian Inspector for the Indian Territory, recently made to the Honorable Secretary of the Interior, if adopted as a basis of legislation, would in effect be to abrogate the Dawes-Choctaw-Chickasaw Agreement. (Sec. 29 of the act of Congress, approved June 28, 1898).

That a reorganization of the tax and school systems of the Five Civilized Tribes, looking to a uniformity of these systems as contemplated in said recommendations would destroy many of the provisions of said agreement that are of the utmost importance to Choctaw and Chickasaw tribes, and would cause confusion and perplexity from which they could not emerge within the time allowed and considered necessary for the continuance of the tribal governments.

It would be a wrong against modest pride to wrest from the Choctaws and Chickasaws their schools, their highest edifice. Our present school system is the work many years of earnest effort and steady improvement; and to take from us an institution cherished in its growth to close attachment, would be at least unfair. Our system of management of the schools has proved satisfactory, as is attested by results. We would ask in fairness to ourselves that our representations be given a place in your consideration of the Inspector's recommendations.

That we submit our claims to be entitled to consideration by reason of the agreement made with your government and ratified by legislative act of your honorable body. We do not deny the propriety of uniformity of system, so far as it is consistent with the terms and provisions of said agreement; therefore

*Be it Resolved by the General Council of the Choctaw Nation assembled:*

We most respectfully ask that your honorable body in its consideration of the recommendations of the United States Indian Inspector for the Indian Territory have due regard for the claims of the Choctaws and Chickasaws, as clearly set forth and expressed in Section 29 of the Act of Congress approved June 28, 1898; and should uniformity of system of government for the Five Civilized Tribes be deemed necessary, that the same be made to conform to that set forth in Section 29 of the said Act of Congress, or as nearly thereto as possible.
